## WAR SAID TO BE ENDED.

### President Bonilla of Honduras Fled From the Field.

**Sudden Stop in Thaw Trial—Wreckers Derailed Train—Gambler Killed Prosecuting Attorney—Search For Kidnaped Boy—Channel Tunnel Project Dead.**

President Manuel Bonilla of Honduras has fled from the battlefield and the Central American war has practically ended, according to cable dispatches received in Washington by the Nicaraguan minister, Mr. Corea. The fall of the Honduran capital, Tegucigalpa, is predicted by the Nicaraguan secretary of foreign affairs, Mr. Gamez.  
The cablegram from the secretary of foreign affairs follows:  
"Choluteca taken. Salvadorean and Honduran combined armies defeated. President Bonilla hidden in San Lorenzo with 200 men. Sent steamers to capture them. Tegucigalpa will be taken tomorrow."  
When shown the dispatch announcing that President Bonilla had fled from Honduras by boat, Minister Corea expressed the opinion that the fugitive president would go to Salvador and recruit his army for a second attack on Nicaragua unless the United States and Mexico exercised their good offices to the extent of insisting that Salvador and Guatemala maintain neutrality.  
If this is done, Mr. Corea says, the war is ended; otherwise he is firmly convinced that it will be only a question of a short time until hostilities are again resumed.  
The government is without further advice concerning the capture of Choluteca, which is expected shortly. Choluteca is one of the most strongly fortified towns of Honduras. It is on the Choluteca river, about three miles from the gulf of Fonseca.

### Wreckers Derailed Train.

A committee of the Pennsylvania railroad which has been investigating the cause of the derailment of the Chicago limited Friday at Stewart, Pa., near Pittsburg, after taking testimony of the train crew and the crews which passed the point of derailment previous to the accident authorized the following statement:  
"The wreck was caused by some person or persons removing the bolt and tieplates joining two rails and turning one of them inward so as to throw the train off the track. The work was evidently that of one with knowledge of tracks and signals, as the 'bond wire' which completes the electric signal circuit was carefully kept intact, thereby causing the signals to show 'safe' instead of 'danger' as they would have shown had this contact been broken.  
"The tools found near the scene of the accident were such as are used in laying track but were not the standard tools used by the Pennsylvania Railroad company, nor were they the property of the company. The place selected for the derailment seems to have been chosen with a view of throwing the train off the track and at the same time guarding, as far as possible, against the loss of life, as the point where the train ran off the track is one of the few on the Pittsburg division where there is no embankment over which the train could plunge."

### Exports of Dairy and Meat Products.

The total exports of meats, dairy products and food animals from United States last year aggregated \$250,000,000 in value, according to a statement by the bureau of statistics of the department of commerce and labor. This represents an increase of \$76,000,000 or 45 per cent during the decade 1896 to 1906. More than 60 per cent of the last year's exports went to the United Kingdom. Even this large percentage, however, is less than that of a decade ago, when Great Britain took over 70 per cent of American exports. Of the \$250,000,000 worth of meats, dairy products and food animals passing out of the United States last year \$40,000,000 was in live animals, \$58,000,000 worth in lard, \$36,000,000 in bacon, \$25,000,000 in fresh beef, \$21,000,000 in hams, \$18,000,000 in oleomargarine, \$14,000,000 in pork other than bacon and hams, \$4,500,000 in butter and \$2,500,000 in cheese.

### Nurse Girl Tried For Murder.

A murder trial presenting features of unusual interest was begun at Carmel, N. Y., on Monday, when Jennie Burch, a 14-year-old girl was called upon to answer the charge of poisoning Wilbur Winship, a 2-year-old child, whose nurse she was. The girl has Indian blood in her veins, her grandfather, Philo Burch, being a half-breed Mohawk. She was employed by Herbert Winship of Patterson, N. Y., as nurse for his infant and seemed very fond of the child. Last September it is alleged she set fire to her employer's barn and gave the infant a peach sprinkled with strychnine. She tried to commit suicide. The defense will be insanity.

### Settlement of Fugitive Brewer's Bond.

The board of supervisors of Cayuga county, New York, last week voted to accept \$6,000 in settlement of the bond of Herman Bartels, brewer, who fled pending sentence after being convicted of attempted arson at Auburn on April 29, 1906. Bartels is still in Canada. His sister and daughter gave bonds for \$15,000, but the county was unable to recover on executions.

## TROOPS FOR MOROCCO.

### Will Immediately Cross the Algerian Frontier.

**Occupation of Oudja Will Continue Till Full Satisfaction Has Been Accorded—French Demands Include Punishment of Murderer of Dr. Mauchamp and Indemnity For Family.**

Paris, March 26.—The Moroccan situation, which has been forced into the background for a year past by acute internal problems, has been brought to the front by the assassination in Morocco City of Dr. Mauchamp, a French subject, and a lively debate is anticipated in the chamber of deputies today.  
Members of the chamber from the department of Saone et oire, where Dr. Mauchamp lived, will interpellate the government. One of them, M. Fernand Dubief, Radical Socialist, is in possession of a number of letters from the doctor in which he complains bitterly of his abandonment by the French authorities, giving instances of their slackness and inactivity. It is expected that extracts from these letters will be read.  
Furthermore, the Socialists are liable to seize this opportunity to attack the government in retaliation for their recent defeat in the matter of the strike by the electricians of Paris. The ministry is fully alive to the importance of the situation and is ready to offer a full explanation to the chamber.  
The decision of the cabinet to send French troops to occupy Oudja, in Morocco, was unanimous. The occupation of this point will be continued until full satisfaction has been accorded.  
The French demands include the punishment of the murderer of Dr. Mauchamp, indemnity for the family of the victim, and the appropriation of a large sum for the foundation of a charitable institution in Morocco in memory of Dr. Mauchamp.  
The decision means that troops will immediately cross the Algerian frontier from Tiensin, where considerable forces of all arms are stationed. The action was taken in order to compel a Moorish response to the repeated demands of France for the repression of disorder and reparation for abuses of power, crimes and assaults affecting French citizens resident in Morocco.  
The Moroccan government has persistently refused to execute the agreements concluded with France in 1901 and 1902 and has absolutely ignored the French government's representations.

### Annual Appropriation Bill.

Albany, March 26.—The annual appropriation bill was reported to the senate by the finance committee last night, was advanced without debate to third reading and will be discussed on the order of final passage probably later in the week. This year's bill, as it passed the assembly, provided for a total of \$20,299,252.06. The senate finance committee has reduced the assembly bill by \$273,018.52.

## BRIEF SESSION OF COURT.

### Justice Fitzgerald Arrived Late and Announced Adjournment Till Wednesday.

New York, March 26.—In anticipation of some action on the part of Justice Fitzgerald regarding the appointment of a lunacy commission for Harry K. Thaw, District Attorney Jerome and all of the counsel for the defense were present in the criminal branch of the supreme court yesterday morning at 11 o'clock.  
Justice Fitzgerald had fixed that hour for notifying the lawyers in case he should desire further evidence from either side or an argument of any sort.  
The defendant's family were all in court. Mrs. Evelyn Nesbit Thaw came down alone and entered the Criminal Courts building entirely unaccompanied. Mrs. William Thaw and her two daughters, the Countess of Yarmouth and Mrs. George L. Carnegie, arrived together and Edward Thaw appeared soon thereafter.  
There was a long wait for Justice Fitzgerald, who did not arrive until after 3 o'clock in the afternoon. By this time, the women members of the Thaw family had become tired out and had returned to their hotels. When the judge finally took his place on the bench he merely went through the formality of having the court session adjourned until Wednesday morning at 10:30 o'clock, the hour set last Friday for the jury to make its reappearance in the case.

### Cossacks Dislike Hangmen's Work.

St. Petersburg, March 26.—The question of drumhead courts martial, the institution of which forms the bitterest grievance of the Liberals against the Stolypin ministry, was raised in the lower house of parliament on a motion of the Constitutional Democrats for the appointment of a committee to draft and submit immediately a bill providing for the abolition of this summary procedure. It was feared that the introduction of this subject in the house would stir the radicals to such a pitch of passion as to threaten the continued existence of the duma, but the debate was conducted with surprising decorum and self-restraint. Several opposition orators narrated the heroic deaths of various persons condemned by drumhead courts martial and a Cossack deputy demanded that the army "be no longer used for hangmen's work."

### National Wrestling Championship.

Newark, N. J., March 26.—For the first time in the history of the sport competitors are crossing the continent to participate in a contest for the national amateur wrestling championship. Among others who will compete are Frank Vance of Seattle, Jimmy Meagher of Buffalo, Charlie Schreiber and George R. Strohn of the New Britain Y. M. C. A. and several members of the Chicago Y. M. C. A., as well as a number of New York men.

### Body Found Hanging to Gas Fixture.

Rochester, March 26.—A man who committed suicide at the Kendall House, Watkins, Sunday, is believed to have been a resident of this city. He registered there Saturday night under the name of James Moore and his body was found yesterday morning hanging to the gas fixture in his room. He had used a sheet for a rope. The police department was notified last night that papers found on the body indicated that his home was in this city.

Washington, March 26.—Vice President Fairbanks, who called on the president yesterday, stated in reply to a question as to the president's office that the railway situation continued bad, so far as the congestion of traffic was concerned. ## KILLED CHILD SHE LOVED.

### Parents Say That Nurse Girl Gave Her Charge a Poisoned Peach.

Carmel, N. Y., March 26.—Seven jurors have been obtained for the trial of 15-year-old Jennie Ruth Burch, the Indian girl who stands charged with murdering the infant, Wilbur Winship, by feeding him a poisoned peach.  
There was a panel of 250 talesmen when court opened. The girl, accompanied by her mother, sat through the proceedings nervously twisting her handkerchief but smiling occasionally.  
Most of the talesmen wanted to be excused, saying that they could not send a girl to the electric chair.  
The seven men seated are: James H. Barrett, Alonzo Booth, Silas T. Hoag, William J. Bishop, John Atter, Robert K. Austin and William Barrett.  
Court was late in convening because Joseph Barry, who was bringing the prisoner from the White Plains jail to Carmel, met with a breakdown on the trolley road. The sheriff and his prisoner returned to White Plains and took a train to Brewster, whence they made a record drive to Carmel.  
It was said that Mr. and Mrs. Winship, parents of the child alleged to have been murdered, have told their friends that they have no desire to have the girl executed, but want her taken to some institution.  
Jennie Burch was a nurse in the Winship family at Cowles' Corner and almost from the time of the birth of Wilbur nursed and cared for him. He was 3 years old when he ate a peach, which it was subsequently found contained strychnine and iodine. As the child died Jennie fell across his body, and, according to the family, said that she had poisoned the peach, that she wished to die and could not bear to leave her little charge behind.

Meagher said Meble spoke of a timetable that had been picked up outside of the house where Schultze and the other defendants were arrested. Meble denied having made any such statement. Mrs. Ida Rollan, daughter-in-law of the woman who kept the boarding house where the men were arrested, testified that early on the evening of March 25, 1906, a man called at the house and went to the room where the defendants were afterwards arrested.
